INDEX TO VOL. XXI (A)

AUTHORS' INDEX

Anantakrishnan, S. V. .. Diamagnetism and chemical bonding, 114.

Bhabha, H. J. .. Relativistic wave equations for the proton, 241.

Bhagavantam, S., and Suryanarayana, D. .. A note on the even, odd and half-overtones in piezo-electric crystal plates, 19.

Chiplonkar, M. W., and Hattiangadi, M. S. .. On the reflection of atmospherics from the ionosphere at night, 265.

Dayal, Bisheshwar, and Sharma, R. S. .. Evaluation of specific heats of metals by the Born-Försterling method, 218.

Deo, P. G. .. Influence of 'aging' on the new light effect in chlorine, 76.

Eliezer, C. Jayaratnam .. A note on accelerated electrons, 31.

Ganapathi, K., and Venkataraman, (Mrs.) Alamela .. Chemotherapy of bacterial infections, XI, 34.

Ghatage, V. M. .. A method of calculating the wall correction for elliptic tunnels, 81.

Harish-Chandra .. On the scattering of scalar mesons, 135.

Hattiangadi, M. S. .. *See* Chiplonkar and Hattiangadi.

Hattiangdi, G. S. .. *See* Prasad and Hattiangdi.
See Prasad and others.

Kartha, A. R. S., and Menon, K. N. .. A tentative method for the determination of mixed glycerides present in natural fats by estimating the saturated acids present in azelao glycerides obtained by permanganate oxidation in acetone, 222.

Kartha, A. R. S., Venkatasubramanian, T. A., and Menon, K. N. .. The glyceride composition of fats and oils, I, 228.

Karve, D. D. .. *See* Lawande and Karve.

Kathavate, Y. V. .. Geometric theory of Fresnel diffraction patterns, I, II, III, IV, V, VI, 177, 188, 194, 198, 203, 208.
The diffraction of light by an assembly of opaque circular disks, 233.

Lawande, Y. V., and Karve, D. D. .. Adsorption of mercuric chloride by colloids, I, 41.

Mani, Anna .. Excitation curves of luminescence in diamond, 280.

Mathur, K. N. .. *See* Prasad and others.

Menon, K. N. .. *See* Kartha and Menon.
See Kartha and others.

Murti, P. Bhaskara Rama, and Seshadri, T. R. — Chemical composition of *Calotropis gigantea*, II, 8.

Wax and resin components of *Calotropis gigantea*, III, 147.

Murty, G. V. L. N. .. Photo-electric estimation of nickel in alloy steels, 73.

Neelakantam, K., and Sitaraman, M. V. .. Luminescence in the solid state—boric acid as base, I, II, 45, 272.

Prasad, Mata, and Hattiangdi, G. S. .. Studies in inorgano-organic gels in pinene, I, 1.

Prasad, Mata, Hattiangdi, G. S., and Mathur, K. N. — Studies in inorgano-organic gels in pinene, IV, 105.

Prasad, Mata, Hattiangdi, G. S., and Vishvanath, C.V. — Studies in inorgano-organic gels in pinene, II, III, 56, 90.

Ramachandran, G. N. .. On the radiation from the boundary of diffracting apertures and obstacles, 165.

Rao, N. V. Subba .. A note on the chemical composition of castor leaves, 123.

Row, L. Ramachandra and Seshadri, T. R. .. Synthesis of 5 : 6-dihydroxy-flavanols, II, 130.

Synthesis of 6:7- dihydroxy-flavonols, I, 155.

Sarabhai, Vikram .. The semidiurnal variation of meson intensity, 66.

Seetharaman, V. .. The geometry of partial differential equations of the second order, 211.

Sen, N. B. .. *See* Murty and Sen.

Seshadri, T. R. .. *See* Murti and Seshadri.

See Row and Seshadri.

Shah, S. M. .. The lower order of the zeros of an integral function (II), 162.

Sharma, R. S. .. *See* Dayal and Sharma.

Sitaraman, M. V. .. *See* Neelakantam and Sitaraman.

Suryanarayana, D. .. *See* Bhagavantam and Suryanarayana.

Venkataraman, (Mrs.) Alamela .. *See* Ganapathi and Venkataraman (Mrs.) Alamela.

Venkatarayudu, T. .. Immanants of a matrix associated with a finite Abelian group, 103.

Venkatasubramanian, T. A. — *See* Kartha and others.

Venkateswarlu, K. .. Effect of temperature on the intensities of Raman lines, IV, 24.

Relative intensities of Raman lines in liquids, 126.

Vishvanath, C. V. .. *See* Prasad and others.

TITLE INDEX

Adsorption of mercuric chloride by colloids, I (Lawande and Karve), 41.
Atmospherics, on the reflection, from the ionosphere at night (Chiplonkar and Hattiangadi), 265.
Bacterial infections, chemotherapy, XI (Ganapathi and Mrs. Venkataraman), 34.
Calotropis gigantea, chemical composition, II (Murti and Seshadri), 8.
Calotropis gigantea, wax and resin components, III (Murti and Seshadri), 147.
Castor leaves, a note on the chemical composition (Rao), 123.
Diamagnetism and chemical bonding (Anantakrishnan), 114.
Differential equations of the second order, partial, the geometry (Seetharaman), 211.
Diffracting apertures and obstacles, on the radiation from the boundary (Ramachandran), 165.
Diffraction of light by an assembly of opaque circular disks (Kathavate), 233.
Electrons, accelerated, a note (Eliezer), 31.
Flavonols, 5 : 6-dihydroxy-, synthesis, II (Row and Seshadri), 130.
Flavonols, 6 : 7-dihydroxy-, synthesis, I (Row and Seshadri), 155.
Fresnel Diffraction patterns, geometric theory, I, II, III, IV, V, VI (Kathavate), 177, 188, 194, 198, 203, 208.
Gels, inorgano-organic, in pinene, studies, I (Prasad and Hattiangdi), I, II, III, IV (Prasad and others), 56, 90, 105.
Glyceride composition of fats and oils, part I (Kartha and others), 228.
Glycerides, mixed, present in natural fats, a tentative method for the determination, by estimating the saturated acids present in azelao glycerides obtained by permanganate oxidation in acetone (Kartha and Menon), 222.
Immanants of a matrix associated with a finite Abelian group (Venkatarayudu), 103.
Integral function, the lower order of the zeros, II (Shah), 162.
Light effect, new, in chlorine, influence of 'aging' (Deo), 76.
Luminescence in diamond, excitation curves (Anna Mani), 280.
Luminescence in the solid state—boric acid as base, I, II (Neelakantam and Sitaraman), 45, 272.
Meson intensity, the semidiurnal variation (Sarabhai), 66.
Mesons, scalar, on the scattering (Harish-Chandra), 135.
Photo-electric estimation of nickel in alloy steels (Murty and Sen), 73.
Piezo-electric crystal plates, even, odd and half-overtones, a note (Bhagavantam and Suryanarayana), 19.
Raman lines in liquids, relative intensities (Venkateswarlu), 126.
Raman lines, on the intensities, effect of temperature, IV (Venkateswarlu), 24.
Relativistic wave equations for the proton (Bhabha), 241.
Specific heats of metals, evaluation, by the Born-Försterling method (Dayal and Sharma), 218.
Tunnels, elliptic, a method of calculating the wall correction (Ghatage), 81.
